

Raya Hyaluron Platinum Gel plus 2.5

INCI breakdown: Aqua
Pentylene Glycol
N-Acetyl-D-Glucosamin
Sodium Hyaluronate
Hydrolized Sodium Hyaluronate
Hyaluronic Acid
Sodium Hyaluronate
Tremella fuciformis sporocorp extract
Sodium Acetylate Hyaluronate

Trade name: **Raya Hyaluron Platinum Gel plus 2.5**

Application: cosmetics

Packaging: in cans, bottles and drums

Filling quantity: 1 kg/unit
5 kg/unit
25 kg/unit
special packaging upon request

Preservatives: Pentylene Glycol

Shelf life: up to 24 months, not opened

Storage conditions: protected from light and heat

Product Specification Raya Hyaluron Platinum Gel plus 2.5

Test	Result
Appearance	clear, thick liquid
pH-value (20 °)	4,45
Dynamic viscosity (20 °C)	1,86 Pa·s (50rpm)
Assay Hyaluronic acid	2,5 %

Composition

- . Aqua
- . Pentylene Glycol
- . N-Acetyl-D-Glucosamin
- . Sodium Hyaluronate (Raya Hyaluron SHMW)
- . Hydrolized Sodium Hyaluronate (Oligomer)
- . Hyaluronic Acid (Raya Hyaluron oNa)
- . Sodium Hyaluronate (LMW 10-50 k Da)
- . Tremella fuciformis sporocorp extract
- . Sodium Acetylate Hyaluronate (Raya Hyaluron acetyliert)
